Brianna Tran Bothell, WA Cell: +1 (425) 364 8832
Email: briagtran@gmail.com LinkedIn: http://www.linkedin.com/in/bria-tran https://bgiatran.github.io/briatran.github.io/

SKILLS

Healthcare IT & Standards: DICOM Routing, HL7 Interoperability, PACS Infrastructure, Electronic Health Record (EHR)

Technical Operations: Systems Integration, RBAC/GDPR Compliance, Hardware Troubleshooting, OAuth2, SolarWinds, SecureCRT/SSH, ServiceNow, Visio, Network Diagramming, LAN/WAN Fundamentals, Data Integrity Auditing

Data & Analytics: SQL, Python, Excel, Tableau, Power BI, REST APIs, Data Flows, Regression Modeling, NLP

Operations & Frameworks: Jira, Agile/Scrum, Roadmap Planning, Requirements Elicitation, Technical Writing

EDUCATION

Bachelor of Science in Computer Information Systems Expected Graduation: June 2027

Seattle Pacific University, Seattle, WA GPA 3.6

Relevant Coursework: Algorithmns, Systems Design, Applications Programming, Organizational Behavior for Managers, Data Analytics and Visualization, Management Information Systems, Database Systems, Computer Architecture

CERTIFCATIONS (IN PROGRESS)

- CPAS-Technical (Certified PACS Associate - Technical): Exam Preparation & Imaging Infrastructure
- CDIP (Certified Documentation Integrity Practitioner): Healthcare Data Standards & Information Governance

PROJECTS

EVAIDE | Senior Capstone Project (Jira, Azure AI, Vector DB, SQL, Agile) Sept. 2025 – June 2026

- Drove product discovery and Agile delivery as rotating Scrum for an AI ingestion app, defining requirements and leading sprint planning to automate evidence classification using Azure AI and Vector Databases
- Managed cloud data security as Lead DBA, configuring database firewall rules and RBAC in Azure
- Collaborated with 4 team members to resolve development impediments and leveraged AI for rapid prototyping

Spotify Listening Insight Dashboard | SQL, OAuth2, APIs, Figma, Wireframing | Github Link June 2025

- Defined data product requirements and designed user flows in Figma, translating user needs into a structured analytics dashboard aligned with privacy-first principles
- Engineered real-time data pipelines with OAuth2-secured API integration and error handling, maintaining 100% compliance with data privacy standards across all user-authorized flows

WORK EXPERIENCE

Technical Intern June 2026 – Aug. 2026
SAIC Santa Ana, CA

- Collaborated closely across Network Operations and Security teams, participating in weekly scrum-style planning syncs to divide tasks, align project timelines, track deliverables, and triaging network alerts in SolarWinds
- Conducted on-site physical audits across regional public facilities (including local schools and the Orange County Probation Department) to complete router refreshes, update enterprise Visio Diagrams
- Assisted the Security team with their Palo Alto firewall utilizing Panorama to clean policies, and leveraged AIOps for NGFW to analyze telemetry data, identify configuration gaps, and report optimization recommendations

Front of House Nov. 2025 – Oct. 2026
Seoul Bowl Bothell, WA

- Delivered exceptional service in a quick-service environment, ensuring positive guest interactions
- Managed front-of-house tasks, including order processing, cash handling, and maintaining dining area
- Facilitated smooth service by ensuring clear communication and coordination between FOH and BOH

Shift Manager Sept. 2025 - Dec 2025
HeChaLou Lynnwood, WA

- Oversaw operational workflows at a high-volume Taiwanese chain store launch, establishing process efficiencies
- Trained and mentored new hires on procedural standards and workflows, for over 20 different recipes
